Education

Lebanese International University (LIU) — Sidon, Lebanon
Bachelor of Science (B.Sc.) in Computer Science — Graduated June 2026

Experience

Piscine Participant – 42 Beirut — Aug 31 - Sep 26, 2026
Intensive programming training | Beirut, Lebanon

- Solved time-constrained coding challenges in **C**, applying pointers, recursion, and dynamic memory allocation
- Collaborated on **three team rushes** (Rush00–Rush02), solving the **Skyscraper puzzle in C** during Rush01 through team problem solving and peer code review
- Completed the intensive **four-week Piscine** with 80+ hours of attendance, earning the Certificate of Participation and Endurance

Backend Developer Intern — Aug - Sep 2025
Ibrahim Fleifel - XpertBot Academy — *Remote*

- Built **Laravel/PHP REST APIs** backed by MySQL, optimizing queries and indexes for faster responses
- Secured APIs with roles and token authentication; added photo verification for employee check-ins
- Validated **12+ API endpoints** in **Postman** for authentication, CRUD operations, and edge cases

Projects

Sou2AI – AI Business Operations Assistant — GitHub
Python, FastAPI, React, PostgreSQL/pgvector, SQL Server, Redis, Gemini, Docker

- Enabled document-based business Q&A through **RAG**, combining document ingestion and pgvector retrieval to provide answers with supporting citations
- Connected natural-language requests to business databases through **TAG**, Gemini tool calling, and approved schema mappings for read-only PostgreSQL and SQL Server queries
- Protected business data with **tenant isolation** and audited tool execution, while enforcing token budgets to control AI usage

PhysioCore – AI-Powered Telerehabilitation Platform — physiocore.health
Laravel, React, FastAPI (Python), PostgreSQL, Redis, Docker

- Built a remote rehabilitation platform with **75 REST endpoints** across Laravel, FastAPI, and React; deployed on Vercel and Railway to make it accessible online
- Integrated an **AI injury-assessment chatbot** and pain-trend analyzer to support rehabilitation, with WebSockets and Redis queues for real-time chat and alerts
- Collected feedback from approximately **10–15 testers**, including a QA professional's UI/UX review, to assess platform usability

Technical Skills

Languages: Python, PHP, C, Java
Frameworks & Data: Laravel, FastAPI, React, Spring Boot; MySQL, PostgreSQL, Redis
Tools: Git, GitHub, Docker, Postman, Linux/Unix, Vercel, Railway, Jira, Slack
Backend & AI: RAG, TAG, Gemini API, tool calling, REST APIs, LLM integration, WebSockets, OAuth, role-based access control, queues
Collaboration: Peer-to-peer learning, teamwork, code review, problem solving

Courses & Certificates

AWS Cloud Practitioner Essentials — Aug 20, 2026
AWS Training & Certification – Course Completion Certificate

Docker, Kubernetes & AWS – Udemy — In progress
